Athletics
Relive some of the most exciting, nail-biting, hair-raising moments in University Athletics history—and it’s not just football. It’s like your very own sports viewing lounge. Stop by and see what’s in store for the exciting future of University Athletics.

College of Arts and Sciences
Play soccer with a robot? At this tent you will, and experience so much more. The College of Arts and Sciences is the intellectual core of the University, where liberal education and transformative research create new insights and communities of learners, while championing lifelong journeys of discovery locally and globally. This experience captures all the creativity, ingenuity and technology we employ with an actual robotic soccer player. This must be seen to be believed, so prepare to have your mind blown…

College of Engineering
Curious about how things work? You might want to stop by the College of Engineering tent. The College of Engineering is focused on educating the next generation of engineers to prepare societal leaders with strong scientific and technical skills combined with an ethical and moral outlook to impact academia, business, government and/or the nonprofit sector.

Dolphins Challenge Cancer
Join us at the No. 1 fundraising event in the NFL. Stop by the DCC tent to register for the Dolphins Challenge Cancer taking place on February 26, 2022.

Frost School of Music
Music is in our DNA, and it is celebrated in this unique and highly entertaining experience. Hear from our top music minds and listen to Grammy-award winning artists through Spotify codes, headphones, and iPads. Student groups, faculty and staff will not only educate but also entertain you as you learn. Fun for everyone, come make music with us...

Lowe Art Museum
Come be awed, inspired, challenged and educated at the Lowe Art Museum Experience. An integral part of the U, the Lowe Art Museum offers audiences of all ages and backgrounds the opportunity to engage with contemporary culture through 5,000 years of human creativity. Explore using the GeoMuse app, designed to show how the Lowe Art Museum touches lives and builds communities by serving as a laboratory for learning, a place for engagement, enrichment and self-discovery.
