POSTCARDS/PRINTED INVITATION MAILING

‘Canes Communities are strongly encouraged to use e-mail/web/social media, rather than mailing out postcards or printed invitations. Printed marketing collateral is more expensive and time consuming to create and is usually less effective than e-mail/web/social media outreach. ‘Canes Communities that are interested in utilizing a postcard/printed invitation mailing, must have achieved P.R.I.D.E. in the previous fiscal year (June 1st to May 31st) and must provide a detailed reason for the mailing to their UM Alumni Association Regional Engagement Staff Liaison. ‘Canes Communities must submit their mailing request at least four (4) weeks in advance of the desired mail-out date. Postcard/printed invitation mailing requests will be evaluated by the UM Alumni Association Regional Engagement Team on a case by case basis.

Important: To comply with the University of Miami Privacy Policy, the UM Alumni Association cannot release any type of constituency contact information, including address information to ‘Canes Communities for a mailing. The UM Alumni Association Regional Engagement Team must manage the process of mailing out postcards/printed invitations for all ‘Canes Community mailings.
